BRIMFIELD GARDENS NURSERY

11

245 WEST BRIMFIELD ROAD

WETHERSFIELD, CONN.

INTRODUCTION

We specialize in the rarer and more beautiful types of evergreens and shrubs, the dwarfer growing sorts which are better adapted to rock gardens, foundation plantings and other places, where space is limited. These types stay in scale longer and give an air of beauty and permanence to the landscape planting.

Term: Cash with order. Not responsible for goods after delivery at express office. All orders promptly shipped and well packed.

We handle also the standard varieties of shrubs and evergreens and will gladly quote on your list. Nursery, 4 miles south of Hartford, off Wolcott Hill Rd. Phone 9,0795.
